INVITATION TO ALL CONCERNED

April 22nd - 30th 2006

2nd Annual Reconciliation Week 2006

A call to all concerned organizations and individuals worldwide, who are willing to work for reconciliation on all levels of socio-economic, political and cultural fields.

Reconciliation as a state of mind

Reconciliation begins within oneself, as a personal subjective experience, in family, with relatives, friends and neighbours, associates and colleagues in our daily work, in and between organisations and companies, on community and international levels.

It starts with small steps, reaching out to those who are near and dear to us, by creating sound mutual relationships as a basis for a worldwide network for peace and order, equality and justice for all mankind.

The mental state of reconciliation gives farsightedness, emotional stability and means to find integration and connections as synthesis between supposed antagonisms and conflicts.

Your Reconciliation Initiative

You contribute with a Reconciliation Project from April 22nd till 30th in your own personal way, together with others, as a group or as an organisation, acting in the spirit of Reconciliation.

Networking the Annual Reconciliation Week

The S.E.R. Foundations initiate numerous events and activities during the Reconciliation Week. The Head Office will inform all participants about projects within their reach and promote networking amongst all. Therefore we kindly ask you to send us a short project description and project format.
